GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), No. 300, dated 1st September 1903:—

The Hon'ble Mr. J. N. ATKINSON, I.C.S.

Read—the following letter from M.R.Ry. P. S. VASUDEVA RAO Avargal, the Special Deputy Collector, Periyár, to the Collector of Madura, dated 1st August 1903, Dis. No. 91-R.:—

I have the honour to submit the report on the progress of Periyár irrigation for the quarter ending 30th June 1903.

2. *Sub-division of survey fields.*—Out of 27,162 sub-divisions shown as pending measurement at the end of the previous quarter, 3,064 sub-divisions were measured during the quarter under report against 2,532 in the previous quarter. The total number of sub-divisions completed up to the end of the quarter is 33,388 and the number that still remains to be measured is 24,098. The outturn shown by the seven field surveyors during the quarter is 3,064 sub-divisions which gives 161 sub-divisions for a surveyor in a month falling short of the standard by 39 sub-divisions. If the suggestion contained in my letter, Ref. on Cur. No. 641-Gl., dated 2nd July 1903, be approved by the Collector, I shall endeavour to secure an outturn of 200 sub-divisions for a surveyor in a month.

3. With regard to the permanent demarcation of all the sub-divisions recorded and to be recorded, I beg to submit that the proposals called for by Government were submitted in February last, and that orders of Government are awaited.

4. *Disposal of applications for loans.*—During the quarter under report, 142 applications involving an amount of Rs. 26,995 were received and the total number of applications that had to be disposed of during the quarter including those that were pending at the end of the previous quarter was 182, involving an amount of Rs. 36,955. Of these, 28 applications involving an amount of Rs. 7,470 were rejected for various reasons, and 57 applications involving an amount of Rs. 9,535 accepted during the quarter under report, leaving a balance of 97 applications involving an amount of Rs. 18,585, exclusive of the sum of Rs. 1,365, being the difference between the amount applied for and the amount sanctioned. Including the cases that awaited payment at the end of the previous quarter, the number of applications on which advances were made during the quarter was 42, and the total amount advanced including the payment of second instalment was Rs. 7,325 against Rs. 16,327-8-0 in the previous quarter. The several officers with whom the 97 applications were pending at the end of the quarter are noted below:—

With whom pending.	One month and under.	More than one month and less than three months.	More than three months and less than six months.	More than six months.	Total.
Special Revenue Inspectors	9	32	2	..	43
Registration Department	41	9	1	..	51
Public Works Department	1	1	..	..	2
Tahsildar of Madura	..	1	..	..	1
Total ..	51	43	3	..	97

Of these 97 applications, 44 have been since disposed of and prompt steps taken to dispose of the rest.

An allotment of Rs. 93,000 under the Land Improvement Loans Act and of Rs. 73,400 under the Agriculturists' Loans Act has been placed at my disposal for disbursement during the current year 1903–1904 and I shall see that the allotment is fully utilized.

The demand, collection and balance of loans at the end of the quarter to which this report relates are shown in the subjoined statement. My Special Revenue Inspectors and myself are giving our best attention to the arrears, and the collection made during the quarter under report was fair :—

—	Principal.			Interest.		
	Arrear.	Collection.	Balance.	Arrear.	Collection.	Balance.
	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.
Fasli 1310	50 0 0	50 0 0	..	12 0 0	12 0 0	..
,, 1311	1,094 3 9	816 3 9	278 0 0	341 10 2	236 3 2	105 7 0
Total ..	1,144 3 9	866 3 9	278 0 0	353 10 2	248 3 2	105 7 0

5. *Laying out of distributaries.*—During the quarter under report, requisitions from the Public Works Department for the acquisition of lands for 16 distributaries and field channels were received and the total number of requisitions that had to be complied with during the quarter including those that were pending at the end of the previous quarter was 21. Out of these, lands were measured by the Special Revenue Inspectors and draft declarations submitted to Government for publication in the *Fort St. George Gazette* in six cases. The total extent measured by the Special Revenue Inspectors during the quarter was 43·165 acres against 30·8625 acres in the previous quarter. The duration of the pendency of the remaining fifteen applications is noted below and seven of them have since been disposed of :—

Period of pendency.	Number of requisitions.
One month and under	6
Over one month and not more than three months	9
Total ...	15

Out of six cases in which draft declarations were submitted to Government, two were published in the *Fort St. George Gazette* before the close of the quarter and the lands covered by them were handed over to the Public Works Department. The lands covered by the remaining applications will be transferred shortly. The total amount of compensation disbursed to the parties during the quarter under report was Rs. 2,420–13–2 against Rs. 2,442–10–1 in the previous quarter.

6. *Sales of waste lands.*—There was no sale of waste lands during the quarter under report. As regards tank-bed lands, I was asked to offer my suggestions on the proposals already submitted—*vide* your R.O.C. No. 634-Gl. of 1902, dated 16th June 1903, and I have submitted my reply thereto in my letter Dis. No. 90-R., dated 30th July 1903.

7. During the quarter under report, I gave my attention to the subject of allowing irrigation from Periyár to dry lands in inam and zamin villages in the Periyár ayakat and my report will be sent to you separately.

8. *Peranai suit.*—The suit which had been adjourned on account of recess was taken up on the 15th July, *i.e.*, two days after the reopening of the court. Seven witnesses on the defence side have been examined and the examination of the remaining witnesses is proceeding. M.R.Ry. S. Rangasami Aiyangar Avargal, the Tahsildar of Dindigul, is in charge of Peranai suit work and giving the information required by the Honourable the Advocate-General and the local Government Pleader in matters connected with the suit.

Endorsement by C. G. TODHUNTER, Esq., I.C.S., Acting Collector of Madura, dated 15th August 1903, D. Dis. No. 1985-Rev.

Submitted to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, Madras.

2. *Paragraph 2 of the Special Deputy Collector's letter.*—The Special Deputy Collector requests that, to ensure better progress, four village servants at the rate of one menial from each of the surrounding villages may be given to each surveyor to assist in the sub-division work for a period of two months. This request will be complied with.

3. *Paragraph 3 of the Special Deputy Collector's letter.*—The Special Deputy Collector's attention will be invited to paragraph 6 of B.P., No. 195, Revenue Settlement, dated 5th June 1903, from which it will be seen that the Board has deferred the submission to Government of the proposals for the permanent demarcation of the sub-division of survey fields in the Periyár tracts, pending the decision of Government on the general question of durable demarcation raised in B.P., No. 167, Settlement, dated 18th May 1903.

4. *Paragraph 4 of the Special Deputy Collector's letter.*—The Special Deputy Collector will be requested to see that the arrears are collected promptly and that the pending loan applications are disposed of at an early date.

Resolution—No. 300, dated 1st September 1903.

Submitted for the information of Government.

2. Compared with the previous quarter, the outturn of work under measurement of sub-divisions shows some improvement, but the average for each surveyor per month does not come up to the standard of 200 referred to in paragraph 3 of B.P., No. 195, dated 5th June 1903. With the assistance of village servants promised by the Collector, it is hoped that the standard will be worked up to.

3. The disbursement made during the quarter under the Loans Acts was unsatisfactory. It is observed that only Rs. 7,325 or 4·4 per cent. of the allotment of Rs. 1,66,400 placed at the disposal of the Deputy Collector was advanced, during what is the best part of the year, for carrying out operations under the Acts. In giving the amount involved in the number of applications that had to be disposed of during the quarter as Rs. 36,955, the Deputy Collector has apparently adopted Rs. 9,960 as the amount for which applications were pending at the end of the previous quarter, and not Rs. 14,095 arrived at by the Board—*vide* paragraph 5 of B.P., No. 195, dated 5th June 1903. He should be called upon to report which of these figures is correct.

4. The work done in the laying out of distributaries was satisfactory.
